JEWS in the United States
This heading is not used. For material on Jews in the United States see entries under the heading Jews (and its subdivisions) which is used for both material about Jews in general and American Jews. References to Jews in a particular State are subdivided by the name of the State as well as by the appropriate topical subdivision.

LITERATURE and literary affairs

Here are entered general references to literature and literary affairs and papers of persons engaged in literary activities. References to literary figures outside the United States are also entered under the name of the country, subdivided by Literature and literary affairs, e. g. Great Britain—Literature and literary affairs. References to English usage both as a language and literary form are entered under English language and literature, particularly in the case of teachers of English, where no distinction can be made between the language and the literature. This applies to other languages and literatures as well.
